

JoshGrease Lithium

NLGI 2 Automotive Grease Lithium

Product Description

JoshGrease Lithium is a premium Mineral Automotive Grease Lithium designed for Wheel bearings, chassis points, general automotive lubrication. Meets DIN 51825 KP2K-30, ISO 6743-9 L-XBCEB 2 specifications and delivers exceptional performance in demanding conditions.

Technical Specifications

Thickener Type	Lithium 12-Hydroxystearate
Base Oil Viscosity	150 cSt at 40°C
Penetration (Worked)	265-295 (0.1mm)
Dropping Point	185°C
Operating Temp Range	-30°C to +120°C
Water Resistance	Good
Rust Protection	Pass ASTM D1743

Applications

Wheel bearings, chassis points, general automotive lubrication

Performance Standards

DIN 51825 KP2K-30

Handling & Storage

- Store in a cool, dry place away from direct sunlight
- Keep container tightly closed when not in use
- Shelf life: 36 months from date of manufacture
- Do not mix with other lubricants
