

JoshGrease Lithium EP

EP NLGI 2 Automotive Grease Lithium

Product Description

JoshGrease Lithium EP is a premium Mineral Automotive Grease Lithium designed for Heavy-duty wheel bearings, universal joints, king pins, chassis with high loads. Meets DIN 51825 KP2K-30, ISO 6743-9 L-XBDEB 2 specifications and delivers exceptional performance in demanding conditions.

Technical Specifications

Thickener Type	Lithium 12-Hydroxystearate
Base Oil Viscosity	175 cSt at 40°C
Penetration (Worked)	265-295 (0.1mm)
Dropping Point	190°C
Operating Temp Range	-30°C to +130°C
4-Ball Weld Load	315 kg min
Timken OK Load	18 kg min
Water Resistance	Excellent

Applications

Heavy-duty wheel bearings, universal joints, king pins, chassis with high loads

Performance Standards

DIN 51825 KP2K-30

Handling & Storage

- Store in a cool, dry place away from direct sunlight
- Keep container tightly closed when not in use
- Shelf life: 36 months from date of manufacture
- Do not mix with other lubricants
