

JoshBrake DOT 4

DOT 4 Brake Fluid Glycol

Product Description

JoshBrake DOT 4 is a premium Polyethylene Glycol Ether + Borate Ester Brake Fluid Glycol designed for Disc brake systems, ABS systems, modern passenger cars, motorcycles. Meets FMVSS 116 DOT 4, SAE J1704, ISO 4925 Class 4 specifications and delivers exceptional performance in demanding conditions.

Technical Specifications

Dry Boiling Point	230°C min
Wet Boiling Point	155°C min
Kinematic Viscosity at -40°C	1800 cSt max
Kinematic Viscosity at 100°C	1.5 cSt min
pH Value	7.0-11.5
Color	Light Amber
ABS Compatibility	Excellent

Applications

Disc brake systems, ABS systems, modern passenger cars, motorcycles

Performance Standards

FMVSS 116 DOT 4

Handling & Storage

- Store in a cool, dry place away from direct sunlight
- Keep container tightly closed when not in use
- Shelf life: 36 months from date of manufacture
- Do not mix with other lubricants
