

JoshCool Green

Ethylene Glycol Coolant Conventional

Product Description

JoshCool Green is a premium Ethylene Glycol (Concentrate) Coolant Conventional designed for Conventional cooling systems, older vehicles, standard protection. Meets ASTM D3306, BS 6580, JIS K2234 specifications and delivers exceptional performance in demanding conditions.

Technical Specifications

Concentration	100% (dilute 50:50)
Freeze Protection (50%)	-37°C
Boil Protection (50%)	+108°C
Density at 20°C	1.12 g/cm³
pH (50% solution)	7.5-8.5
Color	Green
Inhibitor Type	Silicate/Phosphate
Service Life	2 years / 40,000 km

Applications

Conventional cooling systems, older vehicles, standard protection

Performance Standards

ASTM D3306

Handling & Storage

- Store in a cool, dry place away from direct sunlight
- Keep container tightly closed when not in use
- Shelf life: 36 months from date of manufacture
- Do not mix with other lubricants
