

JoshAdBlue DEF

AUS 32 Specialty Automotive

Product Description

JoshAdBlue DEF is a premium 32.5% Urea in Demineralized Water Specialty Automotive designed for SCR systems for NOx reduction, Euro 6 diesel vehicles, AdBlue tanks. Meets ISO 22241, DIN 70070, API Certified specifications and delivers exceptional performance in demanding conditions.

Technical Specifications

Urea Content	32.5% ± 0.7%
Density at 20°C	1.087-1.093 g/cm³
Refractive Index	1.3814-1.3843
Alkalinity as NH3	0.2% max
Biuret	0.3% max
Insolubles	20 mg/kg max
Freeze Point	-11°C
NOx Reduction	Up to 90%

Applications

SCR systems for NOx reduction, Euro 6 diesel vehicles, AdBlue tanks

Performance Standards

ISO 22241

Handling & Storage

- Store in a cool, dry place away from direct sunlight
- Keep container tightly closed when not in use
- Shelf life: 36 months from date of manufacture
- Do not mix with other lubricants
