

JoshCirc

220 Bearing and Circulating Oil

Product Description

JoshCirc is a premium Mineral Bearing and Circulating Oil designed for Very heavy circulating systems, high-load gearboxes, crushers, rolling element bearings. Meets ISO 6743 D-220, DIN 51506 specifications and delivers exceptional performance in demanding conditions.

Technical Specifications

Density at 15°C	0.885 g/cm³
Viscosity at 40°C	220 cSt
Viscosity at 100°C	18.5 cSt
Viscosity Index	90
Flash Point	235°C
Pour Point	-18°C
Air Release	15 min max
Foam Test	150/10 ml

Applications

Very heavy circulating systems, high-load gearboxes, crushers, rolling element bearings

Performance Standards

ISO 6743 D-220

Handling & Storage

- Store in a cool, dry place away from direct sunlight
- Keep container tightly closed when not in use
- Shelf life: 36 months from date of manufacture
- Do not mix with other lubricants
