

JoshCirc

320 Bearing and Circulating Oil

Product Description

JoshCirc is a premium Mineral Bearing and Circulating Oil designed for Extreme duty circulating systems, steel mill rollings, very slow-speed high-load equipment. Meets ISO 6743 D-320, DIN 51506 specifications and delivers exceptional performance in demanding conditions.

Technical Specifications

Density at 15°C	0.890 g/cm³
Viscosity at 40°C	320 cSt
Viscosity at 100°C	24.0 cSt
Viscosity Index	88
Flash Point	240°C
Pour Point	-15°C
Air Release	18 min max
Foam Test	150/10 ml

Applications

Extreme duty circulating systems, steel mill rollings, very slow-speed high-load equipment

Performance Standards

ISO 6743 D-320

Handling & Storage

- Store in a cool, dry place away from direct sunlight
- Keep container tightly closed when not in use
- Shelf life: 36 months from date of manufacture
- Do not mix with other lubricants
